SB25-003 - SPECIFIED SEMIAUTOMATIC FIREARMS GUIDANCE

Version 07/30/2026

Based on public feedback, the division has updated the guidance document to include thirteen new firearms in the addendum on page 144.

[Senate Bill 25-003](#) created section 24-35-122, C.R.S., requiring the Firearms Dealer Division to publish and make publicly available guidance about specific models of firearms to which section 18-12-116(2), C.R.S., applies. Below is a list of semiautomatic rifles and shotguns with detachable magazines and semiautomatic handguns that are gas-operated and have a detachable magazine, to which section 18-12-116(2), C.R.S., applies. The photographs associated with the firearms listed in this document depict only examples of the listed firearms and do not represent all variations of the rifles, shotguns, or handguns included within the same series.

Under the plain language in sections 18-12-101(1)(j), (m), and (l) and 18-12-116(1)(d), C.R.S., frames or receivers for Specified Semiautomatic Firearms and weapons parts kits for Specified Semiautomatic Firearms are within the definition of Specified Semiautomatic Firearms and therefore subject to the requirements in section 18-12-116, C.R.S.

Pursuant to section 18-12-116(1)(d)(II), firearms with certain characteristics, and the specified models of firearms listed in 18-12-116(1)(d)(II)(E), C.R.S., are not considered Specified Semiautomatic Firearms, and are therefore not included in the list below.

The guidance document is based on the functional characteristics of the firearm identified in the definition of Specified Semiautomatic Firearms in section 18-12-116(1)(d), C.R.S. We recognize that certain platforms of firearms, such as the AR-pattern platform (Modern Sporting Rifle/MSR), are highly customizable and have an unlimited number of configurations. If the firearm, as configured, meets the specifications outlined in section 18-12-116(1)(d), C.R.S., it is included within this guidance document. For the purpose of maintaining regulatory transparency and compliance, this guidance document will be reviewed and updated annually.

If you have any questions regarding this guidance, please contact dor_fdd@state.co.us.

For general questions regarding the firearms safety program or the required safety courses, please see the Colorado Parks and Wildlife (CPW), Specified Semiautomatic

Firearms web pages, or contact the CPW, Firearms Safety Program at (303) 291-7143, or email them at dnr_cpw_firearmsafety@state.co.us. For questions regarding the firearms safety course eligibility card, please contact your county Sheriff.

This guidance document does not constitute final agency action. Please consult Rule 1-200, 1 CCR 214-1 of the Colorado Firearms Dealer Rules, outlining the process and requirements for obtaining a Statement of Position from the Division, and, if a petitioner is dissatisfied with a Statement of Position from the Division, a declaratory order from the Executive Director of the Department of Revenue. A declaratory order constitutes final agency action subject to judicial review pursuant to section 24-4-105(11), C.R.S.
